BLACKBIRD

INTRO / GUITARIST: PAUL MCCARTNEY

Picking Pattern 1 is a two event pattern. The first event is to use "p" to play the lowest note along with "m" or "a" to play the highest note. "m" is used if the highest note is on ②. "a" is used if the highest note is on ①. The second event is to use "i" to play ③. Picking Pattern 1 uses one beat therefore it occurs three times in 3/4 and twice in 2/4.

Picking Pattern 2 is a six event pattern. The first two events are the same as those for Picking Pattern 1. The third event is to replay the highest note. The fourth event is to replay the lowest note. The fifth event is to replay the highest note. The sixth event is to replay "i" on ③. Picking Pattern 2 uses a complete bar of 2/4.
